## Maintenance: Enhancing Your Golf Experience at Palheiro!

The Palheiro Golf Team is dedicated 200% to raising the quality of the Palheiro Golf course. We strive to ensure that the course is in the best condition for golf every day of the year.

In relation to buggies, we have modified our policy to make the course more "Buggy friendly". As a result buggies are now allowed to enter several fairways, thus improving the buggy users experience.

We only ask that all our customers follow the instructions, respect the areas that have been roped off and whenever possible apply the 90° rule.

During this month we started to create a better definition of the playing areas, so the rough's mowing height was raised and the mowing height of the fairway's lowered.

With these 2 measures we want to improve definition of the golf course.

In accordance with the maintenance plan laid out by our Consultant Greenkeeper, Eng<sup>o</sup> Tiago Plano, we carried out several treatments on the tees, fairways and greens.

Work has started on cleaning areas of the course, areas which had been in need of attention. These areas were not in play but the ongoing work will add to the beauty of our course.

Regarding the renovation of the bunkers, during this month we refurbished the bunkers on holes 9, 12 and 16. We are committed to finishing this renovation process as soon as possible, but on the other hand it needs to be done properly first time around, which sometimes takes a little longer than originally foreseen.

The process of changing the holes signage has finally been completed, we hope you like it!

During the month of May we will continue to work hard on improving the appearance of our Golf course.

## April Tournaments

The month of April was full of excitement and challenges at our golf course. The Club organised three tournaments, including the long-awaited Flag Tournament! In this particular event, the winner being the player who managed to carry their flag as far as possible.

Gill Riley emerged as the winner of the Flag Tournament by skilfully positioning her flag just 10 centimetres from the 19th hole. Meanwhile, Eduardo Gouveia finished his game 150 metres from the green, also on hole 19.

It's also worth mentioning that in the three tournaments organised during the month of April, one player stood out, namely Oliver Kirchel, who took home three prizes, improving his handicap and showing high levels of golfing skill. In the women's category, Maria Câmara shone by winning two second places in the same tournaments.

Congratulations to all the players for their excellent performances in April! We're excited to see what May has in store for us. Sign up for the upcoming events and keep the passion for golf alive!

### Golf Tip

#### 4 Steps to improve your short game:

1. Ball position in the centre of your stance.
2. 60% of your weight on the left foot (for a left handed player it is on the right foot)
3. Keep your head down through impact.
4. Keep the Y (between arms, hands and club) on the finish.

**Goal:** good contact with the ball, consistency and more control.
